24 February 1966

MEMORANDUM FOR THE RECORD

Morning Meeting of 24 February 1966

Executive Director was in the chair -- DCI and DDCI were at a meeting at the White House.

R. J. Smith noted that preparations are underway for the Fulbright briefing Friday. He also noted that there will be a session with Fulbright sometime next week on China and North Vietnam.

25X1 [ ] reported that Dr. Kent was feeling better and probably would be in the office tomorrow. 25X1

Bannerman reported that the Commo facilities [ ] were functioning. This initiated a general discussion concerning the location of the Commo relay facilities [ ] 25X1 and the antenna complex a short distance outside the city. He noted that the Fairfax Planning Commission will be meeting soon concerning the petition to construct multiple housing on the tract along the entrance to Headquarters from Route 123. The Executive Director urged that this property be purchased if possible. Bannerman also reported that he is seeking to ascertain who the Agency officer was who suggested that the Boy Scouts not use a camp site adjacent to Headquarters property.

Wheelon reported that [ ] 25X1 [ ] the Soviets will probably attempt to recover the animals to study the effects of radiation.

FitzGerald initiated a discussion of ConGen Hong Kong [ ] which 25X1 was a country team assessment of the Chinese Communist leadership's belief that the U.S. was going to attack the mainland. It was agreed that the DDI analysts will study this matter and possibly provide an analysis.

The Executive Director asked that the officers present ensure that action memoranda and letters which are forwarded for the DCI or DDCI's signature be more carefully reviewed. This initiated a general discussion of the paper flow in the Office of the Director.

[ ] 25X1

L. K. White
